

**February 11, 2019 – GATE UPDATE**

**We received the sad news last week that Tony Marshall, the Civil Engineer from MCR Engineering with whom we have been working, was tragically killed in an automobile accident.**

**Last Friday I spoke with Shawn Semaniego from MCR. Shawn is taking over our account and will need a brief time to bring himself up to speed. He is also in contact with our attorney, Andrew Crowell, discussing Andrew's review, questions, and recommended changes to the proposal which Tony previously submitted to us.**

**Shawn will call when he's ready to take over and meet with the gate committee for introductions and creating a plan to move forward. He's aware that we are anxious to proceed with the project and will be in touch as soon as possible.**

**Last week we received word that Tony Marshall, the Civil Engineer from MCR Engineering with whom we have been working on the gate project, was tragically killed in an automobile accident in the City of Ripon. Tony has been instrumental in the gate project to this point.**

**Tony's family and co-workers have obviously been struggling with this news. Last Friday, I spoke with Shawn Semaniego from MCR. Shawn told me he will be the person taking on our project but will need some time to get himself up to speed. He is also in contact with our HOA attorney, Andrew Crowell, discussing the recommended changes to the proposal which Tony previously submitted to us just prior to his death.**

**Shawn assured me he will call when he is ready to meet with the gate committee and creating a plan to move forward. Shawn is aware that we are anxious to proceed with the project and will be in touch as soon as possible.**
